

Series on MATHEMATICS AND ITS APPLICATIONS

Contents

VIOREL BARBU In memorian	5
PEKKA NEITTAANMÄKI Viorel Arnăutu (13.10.1955-04.01.2014)	6
SEBASTIAN ANIȚA, VICENZO CAPASSO, HERB KUNZE, DAVIDE LATORRE Dynamics and control of an integro-differential system of geographical economics	8
ANA-MARIA MOȘNEAGU Optimizing the position of the support of the control for some optimal harvesting problems	27
PIERLUIGI COLLI, MOHHAMAD HASSAN FARSHBAF-SHAKER, GIANI GILARDI, JÜRGEN SPREKELS Second-order analysis of a boundary control problem for the viscous Cahn-Hillard Equation with dynamic boundary condition	41
MIHAI NECULA, IOAN I. VRABIE Nonlinear delay evolution inclusions with general nonlocal initial conditions	67

(continued on inside front cover)

ACADEMY OF ROMANIAN SCIENTISTS

ANNALS

SERIES ON MATHEMATICS AND ITS APPLICATIONS

VOLUME 7

2015

NUMBER 1

ISSN 2066 – 6594

TOPICS:

- ♦ ORDINARY AND PARTIAL DIFFERENTIAL EQUATIONS
- ♦ OPTIMIZATION, OPTIMAL CONTROL AND DESIGN
- ♦ NUMERICAL ANALYSIS AND SCIENTIFIC COMPUTING
- ♦ ALGEBRAIC, TOPOLOGICAL AND DIFFERENTIAL STRUCTURES
- ♦ PROBABILITY AND STATISTICS
- ♦ ALGEBRAIC AND DIFFERENTIAL GEOMETRY
- ♦ MATHEMATICAL MODELLING IN MECHANICS ENGINEERING SCIENCES
- ♦ MATHEMATICAL ECONOMY AND GAME THEORY
- ♦ MATHEMATICAL PHYSICS AND APPLICATIONS

GUEST EDITOR: PEKKA NEITTAANMÄKI

EDITURA
ACADEMIEI OAMENILOR DE ȘTIINȚĂ DIN ROMÂNIA

VASILE DRĂGAN, IOAN G. IVANOV Several iterative procedures to compute the stabilizing solution of a discrete-time Riccati equation with periodic coefficients arising in connection with a stochastic linear quadric control problem	98
DAN TIBA Unilateral conditions on the boundary for some second order differential equation	121
CRISTIAN PAUL DĂNEŢ A survey of the P Function Method for Higher Order Equations and Some Applications	137
PEKKA NEITTAANMÄKI, SERGEY REPIN Error identities for a class of convex variational problems	157
GABRIEL DIMITRIU, RĂZVAN ŞTEFĂNESCU, IONEL M. NAVON Pod-deim approach on dimension reduction of a multi-species Host-parasitoid system	173
CONSTANTIN MOROŞANU On the numerical approximation the nonlinear phase-field equation supplied with non-homogeneous dynamic boundary conditions. Case 1D	189

**INFORMATION FOR AUTHORS
SUBMITTING MANUSCRIPTS IN ELECTRONIC FORM**

The **ANNALS OF THE ACADEMY OF ROMANIAN SCIENTISTS**, series on **MATHEMATICS AND ITS APPLICATIONS** covers the following fields:

- Ordinary and partial differential equations
- Optimization, optimal control and design
- Numerical analysis and scientific computing
- Algebraic, topological and differential structures
- Probability and statistics
- Algebraic and differential geometry
- Mathematical modelling in mechanics and engineering sciences
- Mathematical economy and game theory
- Mathematical physics and applications

We encourage the publication of contributed papers, short notes, survey articles and reviews, with a novel and correct content, in any area of mathematics and its applications. Short notes are published with priority on the recommendation of one of the members of the Editorial Board and should be 3-6 pages long. They may not include proofs, but supplementary materials supporting all the statements are required and will be archived. The authors are encouraged to publish the extended version of the short note, elsewhere. Two issues are published every year, both in electronic and printed form. Special issues devoted to International Conferences or other important mathematical events will be also considered.

The manuscript (in English) should be sent via email as a PDF file, either to the series editors or to any member of the Editorial Board together with a cover letter stating the intention to publish it in Mathematics and its Applications. The submission of a manuscript entails the assurance that it has not been published or it is not under consideration for publication elsewhere and that all the coauthors have approved its submission to Mathematics and its Applications. The Editorial Board encourages the authors to post in a preprint format on [arXiv](http://arxiv.org) their articles submitted to MATHEMATICS AND ITS APPLICATIONS and to add later the Journal [Reference](#).

A template that precises the style and the format of the manuscripts may be found at

www.mathematics-and-its-applications.com

<http://aos.ro/editura/analeleaosr/annals-on-mathematics/>

where the online version is published.

After refereeing is complete, an official letter of acceptance or refusal is sent by email to the corresponding author together with the observations of the reviewers. For publication, the LATEX and PDF files of the revised paper are required, which may be edited by our Secretariate to follow the general presentation rules of the journal. If the manuscript includes figures, they should be added as separate files in the same email message. All **line drawings** and **photos** will be in **grey scale** in the printed version and may be coloured in the electronic version. Very long papers may be divided in several parts and published in subsequent issues of the journal.

A PDF file with the proofs will be sent to the corresponding author with indications for corrections.

For communication, the name, phone number and e-mail address of the author to whom proofs should be sent must be indicated. The corresponding author is responsible for informing all co-authors that the manuscript has been submitted for this series.
