

ANNALS OF THE ACADEMY
OF ROMANIAN SCIENTISTS

Series on MATHEMATICS AND ITS APPLICATIONS

CONTENTS

GABRIELA GROSU Compactness for an integro-differential equation with measures	161
JIRI JARUSEK, MIRCEA SOFONEA On the solvability of dynamic elasto-visco-plastic contact problems with adhesion	191
CONSTANTIN NICULESCU, IONEL ROVENTA The existence of a global attractor for a class of rational maps	215
MARIUS BULIGA Hamiltonian inclusions with convex dissipation with a view towards applications	228
CHARLES HORVATH A note on metric spaces with continuous midpoints	252

ISSN 2066 – 6594
