CONTENTS

MONICA BURLIC?
Viability for multi-valued semilinear reaction-diffusion systems 3

ANDALUZIA MATEI, RALUCA CIURCEA
Weak solvability for a class of contact problems **25**

IRWIN YOUSEPT
Optimal control of a nonlinear coupled electromagnetic induction heating system with pointwise state constraints **45**

J. FRÉDÉRIC BONNANS
Lipschitz solutions of optimal control problems with state constraints of arbitrary order **75**

MIRCEA SOFONEA, DAN TIBA
The control variational method for elastic contact problems .. **99**
